

## RACCOON CREEK TRIP IN OCTOBER CANCELLED UNLESS...

The cleanup scheduled for Labor Day Weekend did not happen due to lack of participation.

The trip on October 22 and 23 WILL NOT be run without a cleanup. It is not possible to scout the creek from the road. Therefore, there is a new cleanup scheduled for October 8 and 9.

Camping will be available at Raccoon SRA for those who wish to camp. The group will meet at the Shell Station on IN36 just across from the SRA both Saturday and Sunday. Departure for the put in will be 9:02. For those new to the area, take IN 36 west from Indy. After you cross Hardin Lake and go up the hill, the SRA is on the south side and the Shell Station on the north. This is the same location as directions for the original cleanup indicated.

Please call Dwon at 765-288-1404 about helping on the cleanup by Thursday, October 6. If not enough help, we will not go.

If the cleanup happens, so will the trip on Oct 22 and 23. Again, please call by Wednesday, Oct 19 to get details for the put in and times for the shuttle. There will not be another newsletter to give this information.

If the paddling trip does not happen, Dwon, Roger Ritchie, and Fred Sanders have three campsites reserved for both the weekends of October 11/12/13 and October 21/22/23. We can double up and enjoy the festival either way. Again, please call Dwon.
